عنوان درس: (زبان تخصصی) آب و هوا شناسی

رشته تحصیلی/کد درس: آب و هوا شناسی ۱۲۱۶۴۸۹

1- Geography is also a discipline that a wide variety of subject matters.

1. Describes 2. Indicates 3. Integrates 4. Individuals

2- What does require the study of enhancement of the earth's green house effect?

1. Multidisciplinary approach 2. Anthropogenic processes
3. Human-Land tradition 4. Scholarship

3- Physical geography studies the of water and climate, soil, vegetation, animals, water in all its forms.

1. Spatial patterns 2. Characterized
3. Relationship pattern 4. Effect

4- What does religion mean?

1. Something unusual 2. Social traditions
3. Come together 4. Faith

5- What does combine mean?

1. Improvement 2. Increasing 3. Decomposition 4. Join

6- As the tsunamis nears the The wave height increases markedly.

1. Sea shore 2. Coast line
3. Dip waters 4. Undersea earthquake

7- What is the force driving landslide movement?

1. Steep slopes 2. Saturation by water
3. Earthquake shaking 4. Gravity

8- what phenomena are associated with hurricanes?

1. Storm surge 2. Toxic gases 3. Local tsunamis 4. Mudflows

سری سوال: یک ۱

عنوان درس: (زبان تخصصی) آب و هوا شناسی

رشته تحصیلی/کد درس: آب و هوا شناسی ۱۲۱۶۴۸۹

9- A measure of the amount of energy released by an earthquake is

1. Interval 2. Return period 3. Magnitude 4. Focus

10- The axis inclination varies to some extent, because.....

1. The earth is not a perfect sphere 2. The tilt of the rotational axis
3. The earth's path is circular form 4. The earth travels around the sun

11- What happened when plates are moving apart?

1. Occur earthquake 2. Form new continental crust
3. Form mountain ranges 4. Form new oceanic crust

12- In this layer of atmosphere some radio waves are reflected back to the ground.

1. Troposphere 2. Stratosphere 3. Ionosphere 4. Exosphere

13- what is called either of two times in a year when the sun crosses the celestial equator?

1. Meteoroid 2. Equinox 3. Leap-year 4. Solstices

14- What is the flow of water from the ground surface into the ground?

1. Condensation 2. Runoff 3. Transition 4. Infiltration

15- What is the sinking branch of Hedley cell?

1. Subtropics 2. Equatorial region
3. Mid latitudes 4. Arctic region

16- is a loss from the hydrological cycle.

1. Precipitation 2. Runoff
3. Evapotranspiration 4. Infiltration

17- The severe droughts and floods are

1. interglacial 2. extreme weather events
3. Low lying areas 4. greenhouse gases

18- When tornadoes occur in the United States?

1. Winter 2. Winter and early fall
3. Spring and fall 4. Spring and early summer

19- When tropical cyclones occur?

1. Summer 2. Spring 3. At any time 4. winter

سری سوال: یک ۱

عنوان درس: (زبان تخصصی) آب و هوا شناسی

رشته تحصیلی/کد درس: آب و هوا شناسی ۱۲۱۶۴۸۹

20-What is a monsoon circulation determined by ?

1. Clash of different air masses
2. Rising and release of water vapor
3. Different heat capacity of continents and oceans
4. Two air masses collide

21-In the fall and winter increase in strength.

1. Monsoons
2. Tornadoes
3. Easterlies
4. Westerlies

22-What is called small trees or shrubs beneath larger trees?

1. Under growth
2. Shrub land
3. Spruce
4. moss

23-What are climate conditions in boreal forest?

1. Six months temperature is 6 c°
2. Hot totally frost-free
3. A season of prolonged drought
4. Harsh, cold winter and brief summer

24-Tropical forest is

1. Supported by fertile soil
2. A dense forest
3. Adjusted to the longer growing season
4. An arid region

25-Which one is important for global pattern climate?

1. Soil chemistry and texture
2. Global production of wood
3. Biogeochemical cycle
4. Psychologically role of vegetation

26-26-Since the Industrial revolutions raising carbon dioxide concentrations by

1. 30%
2. 145%
3. 3%
4. 200%

27-What is the second largest terrestrial eruption of the 20th century?

1. Mount Tambora 1815
2. Mount St.Helens 1980
3. Mount Pinatubo 1991
4. Novarupta 1912

28-What is the present interglacial period?

1. Pliocene
2. Holocene
3. Precambrian
4. Neogene
